- Annual Percentage Yield (APY) is accurate as of the effective date indicated above. Rates are subject to change without notice and the rates on accounts other than a certificate of deposit (CD) may vary after the account is opened. One rate may be assigned to a CD regardless of the balance in the CD. We may offer different rates for CDs depending upon which Citibank account package contains the CD.
- APY and interest rates are subject to change at any time before a term begins for a new and renewed CD. Interest rates are fixed for the CD term. APY assumes the full balance and interest will remain on deposit in the CD account until maturity. A penalty will be imposed for early withdrawal. Credited interest may be withdrawn without penalty. A withdrawal will reduce earnings. See footnote 3 below for withdrawal differences for the No Penalty CD. When the APY and interest rate are based on account balance, the applicable balance range will be used to determine your APY and interest rate. Except where indicated, the APY and interest rate for a CD term applies to all balance ranges. CDs automatically renew for the same term at the APY and interest rate in effect on the CD renewal date unless you make a change during the grace period.
- You may withdraw your full balance and interest without penalty after the first six (6) calendar days you make the minimum deposit into your new CD and your deposit has been fully collected. A penalty applies to withdrawals made during the first 6 days. Partial withdrawals, including interest withdrawals, are not permitted. A No Penalty CD automatically renews without the no penalty feature to a 12 Month CD.
- The Step Up CD has 3 fixed interest rates for each period during the term beginning with Months 1 through 10, Months 11 through 20, and Months 21 through 30. A Step Up CD automatically renews without the step up feature to a 30 Month CD.
- The Composite APY is based on the total interest that will be paid from all step rates during the CD term and assumes interest and principal remains on deposit until maturity.
